## Noble design

The IB-HUB 1426-U3 offers not only functionality but also a stylish design. The high-quality aluminium housing lets other enclosures stand in the dark and the rounded edges along with the smooth side make the HUB a real eye-catcher.

### 50-50

The middle does the trick - and the IB-HUB1426-U3 demonstrates it. It has two USB Type-C™ as well as two Type-A connectors and keeps the balance between the longstanding connections and those that are entering the work and living rooms. This makes it the perfect companion for existing equipment as well as for equipment purchased in the future.

### 10 cm integrated cable

By using the integrated cable you'll never ask yourself "Where did I leave the fitting cable?" because now you are always ready to plug in the device.
